10 Reasons why Leiden Bio Science Park is the Innovation Hub for Life Sciences

The Leiden Bio Science Park is the largest and most mature life sciences cluster in the Netherlands. Located at the park are over a 100 dedicated biomedical companies, including several multinationals such as Johnson & Johnson, Astellas and Galápagos. The park has the highest number of bioscience start-ups in the Netherlands providing a dynamic environment for the development of exciting novel therapeutics. This combination positions Leiden as a significant international 'R&D hub'.

INNOVATION

1 Among top 5 European Science Parks

Leiden Bio Science Park is the number 1 Life Sciences & Health hotspot in The Netherlands and one of the most important clusters within Europe

2 10 educational institutes, a highly educated life sciences labor force

Leiden Bio Science Park has a wide range of research and educational institutions, from top academic institutes, to PhDs & postdocs, and vocational level education.

Universiteit
Leiden

mborijn//land

3 Acclaimed advanced research institutes & training facilities

More than € 267,000,000 is annually spent on 3,000 research projects and over 400 clinical trials, resulting in 186 patents and around 5,700 academic publications.

NeCEN

LACDR

4 Leading international ecosystem, renowned for:

- Translational drug discovery and development
- Immunity, infection and tolerance
- Vascular and regenerative medicine
- Bioscience: the science base of health
- Health, prevention and the human life cycle
- Cancer Pathogenesis and therapy

5 Prize winners: the highest accolades awarded in Dutch science

Associated with the Leiden University and Leiden University Medical Center (LUMC).

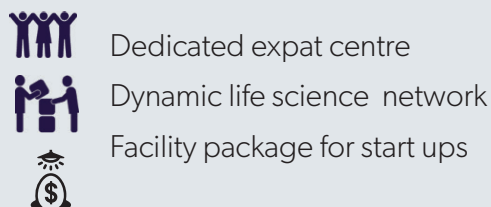

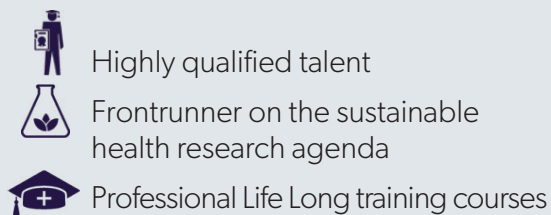

15 NOBEL PRIZE WINNERS

21 SPINOZA PRIZE WINNERS

6 Opportunities for established companies, institutions and startups to flourish

7 Home to large international companies

The vibrant Leiden bioscience ecosystem is ideal for setting up business operations in Europe.

8 Leiden Bio Science Park: your gateway to Europe

A central location with easy access to Schiphol Airport and the new office of European Medicines Agency (EMA) in Amsterdam.

9 Leiden, Key to Discovery

Leiden, a beautiful historic city with a vibrant atmosphere, including many canals, 3000 monuments and 13 museums on arts, antiquity, nature, medical science and anthropology. Situated in a dynamic region with a high living standard and climate.

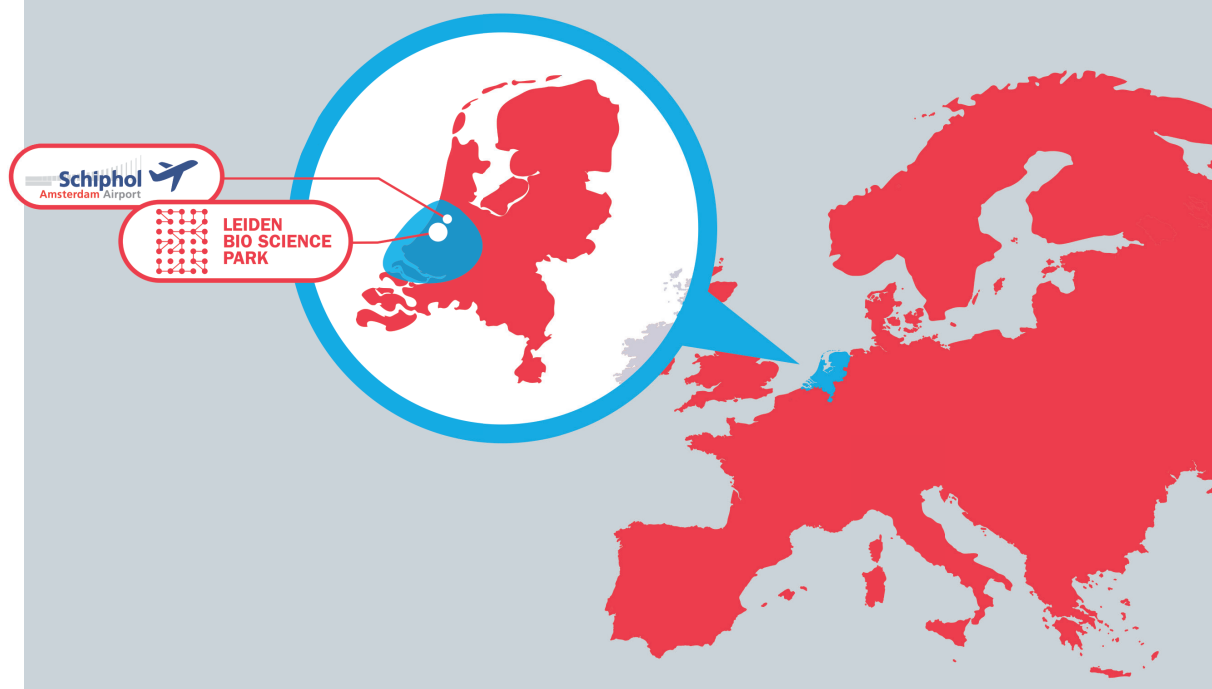

10 2022: European City of Science

Leiden will be the European City Of Science in 2022, in the footsteps of Copenhagen (2014), Manchester (2016), Toulouse (2018) and Triest (2020)

Leiden Bio Science Park, the Innovation Hub for Life Sciences

The leading Dutch Life Sciences & Health Innovation
Hub in West Holland

The park is situated in the West Holland region and is centrally located between Amsterdam and Rotterdam, in the economic heart of the Netherlands.

With the upcoming relocation of the European Medicines Agency (EMA) in the surrounding area, it is time to seize the moment and settle in the fastest growing science park. Turnkey offices, dedicated laboratories and 300,000 square metres of green fields are at your disposal.
